EDITORIAL

The world reference for multihull professionals and enthusiast runs from April 3 to 7.

For this 15th edition, the port of La Grande Motte will be welcoming over 60 boats afloat and ashore, as well as a host of exhibitors presenting their latest products and projects, for a 100% multihull experience.

Last September the Fédération des Industries Nautiques (FIN) officially acquired M2Organisation (M2O), the company that organises the show. In addition to owning the Cannes and Paris shows and organising the French pavilions at METSTRADÉ in Amsterdam, FIN has sponsored the International Multihull Show since 2017. This year, 2024, is one of major transition, reflecting the desire to preserve the excellence of this event and its DNA, but also the desire to write a new page in the history of the International Multihull Show, together with all the exhibitors, the Occitanie Region, and of course the town of La Grande Motte, its marina and all the show's partners.

THE INTERNATIONAL MULTIHULL SHOW IN FIGURES

THE MULTIHULL EXPERIENCE, UNDER SAIL AND POWER

For this cuvée edition, a number of products are making a comeback with the **new Windelo 54** and the **Moorings 403**, both of which are world premières, two European new launches the **Nautitech 48 Open** and the **GP70** (one-off version).

All the major brands producing cruising catamarans are represented: **Lagoon, Leopard, Bali, Fountaine Pajot, Nautitech, Aquila, Excess and Catana** are presenting several models from their range, and visitors are invited to discover the latest models such as the **Aura 51, Excess 14, Lagoon 51, Catana Ocean Class**, the **Leopard 40 Powercat**, the **Bali Catspace** and the **Nautitech 44 Open**.

The show is also an opportunity to discover other types of more performance-oriented multihulls, such as fast cruising catamarans, the **ORC** from Marsaudon Composites, the **powercat** from Four Winns or the eco-designed **Windelo** catamarans.

The styles vary greatly, including the luxurious **Prestige, Privilège**, the transportable trimarans from **Tricat** or the comfortable **Neel** cruising trimarans. Among the multihulls produced outside France also expected are the **Leopard** range (used by the **Sunsail** and **Moorings** charter fleets), built in South Africa, as well as the models from **Balance Catamaran**, the **Aventura**, produced in Tunisia, **high-tech carbon catamarans** HH from the Philippines, the **C-Cats** from the Italian shipyard Comar, the **Libertist** sports trimarans, built in Poland, and the famous **Dragonfly**, fast trimarans from Denmark. **Kiriacoulis, Apaca** and **Navigare**, will be showcasing their rental offers too.

A BRAND NEW 2024 LAYOUT

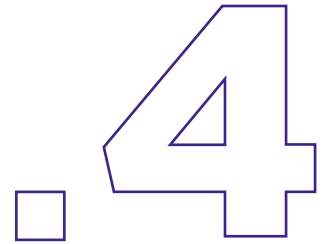

In addition to the pontoons, the **"exhibitors' village"** will bring together the professional community, multihull specialists showcasing their products and services.

There will obviously be equipment manufacturers, suppliers and manufacturers of fittings, electronics, sails or marine saddlery accessories and marine clothing but also banks, insurance companies, marinas, charter companies - in short, all the key players in the business.

To meet recruitment needs and promote training in the industry, the **FIN**, with the support of from OPCO2i, will be presenting on its onshore and training courses for young people and adults undergoing retraining. Finally, a new feature of this year's event will be the opportunity to test boats and products in a dedicated area of the Show.

The International Multihull Show will also be bringing fun and ecological experiences too with a experience area - to discover and try out innovative boats and innovative products.

ARCHITECTS, DESIGNERS AND INNOVATION ALWAYS IN THE SPOTLIGHT

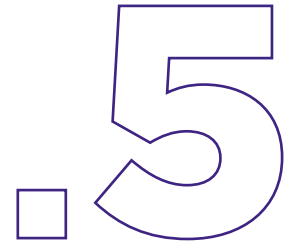

Positioned at the heart of the main exhibition hall, the **Multihull Club Design & Innovation** is a key focal point for professionals and visitors alike. A special place, entirely designed to host innovative projects, bringing together architecture and design in the multihull industry, start-ups and equipment manufacturers with new and innovative products and services.

To the likes of **DOCKMATE**, **Monawa** from **AGL Marine**, a real revolution in boat cleaning in marinas or the **CATCHA 320** - the French catamaran tender from Catcha Marine, or the South African architecture firm **Du toit Yacht Design**, that specialises in the design of both custom-built and series yachts and catamarans.

THE 2024 NEW PRODUCTS REFLECT THE FIN'S COMMITMENT TO RENEWAL

A larger exhibitors' village, new social areas, a new programme... The Multihull Club design and innovation welcomes all the big names in architecture and design from the multihull industry, start-ups, forward-looking projects... Also new is a test area afloat dedicated to small boats and innovative products. Particular emphasis is being placed on innovation and sustainable development, with particular focus on sustainability issues such as propulsion, on-board energy, maintenance and eco-design.

What's new from the exhibitors' side?

JFA | H35:

JFA Yachts is further developing the Long Island range with the launch of an 87' Long Island, featuring a new more contemporary design for the doghouse, a longer flybridge and equipped with the very latest technology to ensure passenger comfort for round-the-world cruising.

COMAR C-CAT | M42:

the new version of the C Cat 48 includes the addition of knuckles to increase the volume in the aft cabins. This solution makes the spaces more ergonomically efficient, resulting in an improved and increasingly comfortable cruising experience. This feature is also reflected in the new 'Blue Water' configuration. The yacht is designed for long-distance sailing, and features

a number of details and solutions designed specifically for the owner in line with his ambitious project.

DREAM YACHT | E45:

the group launches its new 2024 programmes for yacht ownership.

LIBERTIST YACHTS France | P9:

introduces its latest model, the 853 SW.

NAUTITECH CATAMARANS | T2:

the shipyard will be showcasing its latest model, the Nautitech 48 Open, for the first time in Europe. This catamaran is set to take the Open DNA even further, and promises to redefine the on-water experience thanks to its innovative design, exceptional performance and cutting-edge features. Highly awaited after the success of the 44 Open, voted European Yacht Of The Year 2023, the 48 Open will be on display at the Multihull Show 2024.

GOKATA18 | P5: unveiling of the New Windelo 54 Yachting, a world premiere at the Salon International du Multicoque de La Grande Motte. The new Windelo 50 has also been nominated for the Multihull of the Year 2024 award in the SAIL PERFORMANCE category!

CAPT'N BOAT SAS | E12: a management solution for crew for boat charter companies, available in the form of a mobile application.

CATHYACHT INTERNATIONAL | E11: new and used boats over 15 metres: Lagoon, Fountaine Pajot, Sunreef, Outremer, Privilege, Catana, Exclusive, Magic Cat, etc.

COM. A FLAG | T24: personalised flag-making service.

DKS FRANCE | H16: extended range of zero-waste products - rope soap, solid sea shampoo, solid sea dishwashing soap...

E-NAV SYSTEMS | H28: new SERVOPROP 25 KW OCEANVOLT, and new for France, RIM DRIVE TECHNOLOGY and MOLABO 50 KW 48 V.

SAS SAFE BOAT EQUIPMENT | H63: two new colours in the catalogue, yellow and lagoon.

FRENCH EAUX | H19: the electricity-free OneZero Osmosis unit, capable of producing 3 litres of pure water in 10 minutes.

K-REN | H18: ZenDock is a device that protects motorboats' hulls by preventing fouling. It's very easy to use, as it's designed to be positioned in the boat's berth.

NAUTICONCEPT/LIBERTY PASS | E04: new sailboats and multihulls on subscription at the show, and a special offer during the show.

MS SOLUTIONS | T26: MS Deco - launch of the online shop for the 2024 Multihull Boat Show. French EauX dealer and installer with a wider range of services available throughout France!

PANTAENIUS GMBH | H06: tailor-made charter insurance - With Pantaenius Charter Insurance, make the most of your holidays. Have you chartered for a day, several days or a few weeks, with or without a skipper, in a private cabin, alone or with others? We have the insurance solutions to suit your needs. The contract is processed online in just a few steps.

PHILEOLE | T08: launch of a new finish option for the structure, available in white or black powder coating.

PIBA LOCATION | T34: the Philisa APACA sailing school is launching a safety course for the 2024 season in partnership with France's national lifeboat service (SNSM). Alongside Hyères and Bandol, Philisa APACA is adding new charter bases with destinations that include Corsica, the Costa Brava and Greece.

PORTOFINO SHIP YARD | H32: presentation of 47' and 52' sailing catamarans, as well as new ongoing projects.

AIR POPPY | H03: this windsock is quickly assembled with a single attachment, no halyard required. Universal for all deck hatches on sailing and powerboats, including catamarans. The windsock is efficient thanks to its structure (profile retention = better airflow) and includes a mosquito net.

VOILENSAC | T46: ergonomic inflatable footstool made from recycled boat sails.

AGL Marine | H35:

AGL Marine is the exclusive distributor for MONAWA. An ecological, economical, customisable and mobile solution for protecting water resources. AGL Marine offers MONAWA mobile washing stations, combining a watermaker and a high-pressure cleaner. This mobile seawater / freshwater cleaning station has been designed to transform seawater into freshwater. The seawater is used to wash boats and infrastructures, while the fresh water is used to rinse them.

VERITAX | E08:

LOGNAV leasing, the only fully automatic and secure product dedicated to your sailing reports sent to your financial institution, after checking by a dedicated team.

AST - ADVANCED SAILING TECHNOLOGIES GMBH | E29:

LOGNAV leasing, the only fully automatic and secure product dedicated to your sailing reports sent to your financial institution, after checking by a dedicated team.

HICA BOATS:

AQUAHELM GALA.

PROPRIALOC | T12:

this year, you'll discover our latest model, the Andaman 52. The big brother of the 50, it is, like its younger sibling, a resolutely eco-responsible ocean-going catamaran. Its sleek lines and remarkable lightness (11.5 tonnes) ensure exceptional performance. Combined with a methanol/water fuel cell backup solution, our unit guarantees unrivalled sailing comfort, without compromising autonomy.

MAP YACHTING:

GREENFILL 80 & GREENFILL100 - the world's first CMR-free bio-sourced epoxy coatings. GREENFILL

80 & GREENFILL100 are bio-based coatings formulated from epoxy systems with very high mechanical performance. EPOXYGUARD IM 409 - Two-component undercoat based on the latest technological chemicals. Very high solids anti-corrosion epoxy coating - Moisture tolerant. Highly filling and can be immersed quickly after application. Can be tinted to match RAL and AFNOR colour charts. DECKTHANE UVR - Flexible anti-slip coating for intensive use. Resists the most severe stresses in marine environments, does not yellow or chip. Ideal for all intensive traffic areas. Adjustable roughness for perfect grip. Wide range of colours.

CLEAN BOAT - CB DISTRIBUTION / MY SHOP SOLAIRE | E52:

30 years anniversary - Come and discover our new products on our stand (products, accessories and new measuring cap, anti-waste solution).

TEMO - TEMO-1000 | E13:

portable, silent and powerful, with an interchangeable battery system, the TEMO-1000 electric outboard motor has been designed to fit large tenders and/or small sailboats up to 8 metres. TEMO-450 Carbon: weighing in at just 4.6kg, the TEMO-450 Carbon has a range of over 1 hour at full power, thanks to its 12.8Ah (323Wh) battery, and comes with a 5-year guarantee. It will win over fans of beautiful things thanks to the aesthetics of its carbon tube.

GRAND LARGE YACHTING MEDITERRANEE | P1:

the Outremer 52 has been designed on to the needs and uses of owners. While performance and safety have always been at the heart of the design of Outremer ocean-going catamarans, simplicity of navigation and quality of the life on board are the two essential components that complete the brief of the Outremer design team.

POLE NAUTISME | E35:

800-metre section dedicated to catamarans - Special multihull village.

KARVER SYSTEMS | H62:

come and discover our new KRS reefing-furling systems, as well as our perfect tensioning solution for staysails. Fixed or non-fixed, complicated tacking is a thing of the past. Choose the KJSK from Karver. The block and tackle are integrated into the bottom of the sail. Up to you!

PROMARIS SRL Belgique | E57:

Teakoya - the smart alternative to the increasingly rare and expensive teak decking on yachts. Promaris develops, produces and installs imitation teak flooring, table tops, gangways, shower gratings, etc., in the unique Teakoya marine wood composite. Teakoya does not absorb moisture, does not rot, is non-slip and easy to maintain. Request a non-binding quotation!

CATCHA MARINE | H35:

launch of a new catamaran tender

COSMOPOLITAN YACHTS SL | E36:

Cosmopolitan 70 - Optimum performance, minimal crew, luxury and efficiency combined. Cosmopolitan 85: Superyacht luxury, helipad capability, designed for full cruising.

RECREATIVE ELECTRIC VEHICLES | E07:

CECLO JETSKID: 100% electric jetski for children aged 5 and over.

FRANÇOISE DAGORN | H04:

during the show, Françoise Dagorn will be exhibiting original paintings, both large and small, with a focus on her «Oceanic voyages» series. The latter is an invitation to escape and discover a new artistic habitat. Her works depict marine animals and maps pasted together following her inspiration.

ORC CATAMARANS | P3:

launch of the latest boat to come out of the ORC yard: the 57#03 «AVEL VAEZ».

SPBI SA - ETS PRESTIGE | S4:

discover new horizons, get back to nature, reconnect with yourself and others in a spacious, refined and bright environment: this is the Art of Living offered by the new M8. Cruises are intended to be relaxing, serene and more respectful of the environment, with reduced fuel consumption. This new flagship is designed to offer a unique experience and special moments on the water, to be savoured in the utmost privacy.

BECHARTER | H34:

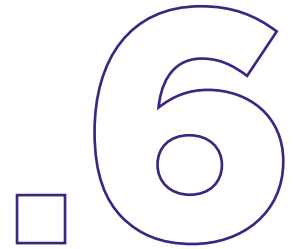

if you dream of buying a boat and forgetting about year-round maintenance / Generating income when you're not using it / Enjoying sailing during your holidays in Mallorca and the Mediterranean Sea: the Ownership Programme could be right for you! BeSECURE or BeFLEXIBLE, find out which you prefer!

BEYOND LIMITS GMBH | T27:

Annum Bicycles electric mountain bikes. The powerful, sturdy electric mountain bike is the ideal choice for discovering new trails, touring the bike park or setting off on longer excursions. Manufactured to your specifications with great craftsmanship and attention to detail, each electric mountain bike is a unique work of art.

**FIN is delighted
to be entering a new era at
the International Multihull Show,
with the support of the city of
La Grande Motte, the Occitanie/
Pyrénées-Méditerranée region
and all its partners
and exhibitors!**

MAJOR FIN EVENTS

The nautical team is recruiting Throughout the show | T28

For the past two editions, the Occitanie region has been coordinating a collaborative operation with the Campus des Métiers et des Qualifications d'Occitanie, the Agglomération de Pays de l'Or, the Institut Nautique de Méditerranée and the Fédération des Industries to promote the sector and its careers.

The use of a national and international showcase for the boating industry, such as the International Multihull Show, is a major asset for this type of initiative. Around forty employment and training professionals (training organisations, Pôle emploi, employment centres, local missions, etc.), sixty or so secondary school students preparing for the BAC Pro in boat maintenance and twenty jobseekers will be welcomed to tour the show's pontoons, visit the Outremer and Gunboat shipyards and find out more about the industry's careers and challenges.

For this year's show, the FIN is organising themed workshops to help people find out more about the industry, as well as a special event in conjunction with the «Equipe nautique recruits» campaign.

This space for discovering the different professions will give participants the chance to experience them first-hand

Three workshops will be on the agenda:

- **the composite operator profession** will be represented by a miniature workshop showing the different stages in the construction of a boat's hull.
- **Maintenance and marine mechanics** will be presented through a simple assembly/disassembly/repair game based around an engine.
- And finally, the professions associated with **the design office** are presented using a digital tool that allows visitors to discover the different stages in the design of a boat.

**POSIDONIA
ALLIANCE**
Thursday 4 April
from **3pm**
to **4.30pm**
at Multihull Club

Since June 2023, stakeholders in the French Mediterranean, including the Occitanie Region and the Fédération des Industries Nautiques, have joined forces within the Posidonia Alliance to preserve the Posidonia meadows of the Mediterranean.

The Posidonia meadow is a key marine ecosystem in the Mediterranean. Its role as a habitat for more than 1,000 animal species, as a nursery, as a means of combating erosion and as a carbon receptor is essential. However, despite numerous protection regulations, pressure from human activities continues to pose a threat to Posidonia.

Through its innovative and unique approach, bringing together public and private players and NGOs, the Posidonia Alliance aims to create a strong and visible collective movement, capable of raising awareness of the need to preserve Posidonia among citizens, elected representatives, boaters and all the economic and social players on the French Mediterranean coast.

The Posidonia Alliance brings together all the players who wish to commit themselves to promoting all relevant solutions in terms of marine practices to preserve Posidonia meadows and to carry out awareness-raising and information campaigns to encourage more respectful behaviours.

Nautical industry and services contract for occitania

Signing on Friday 5 April at 2.30pm

At the International Multihull Show, the Occitanie Region, the French Government and FIN will sign the Occitanie Nautical Industry and Services agreement. The Occitanie region is the first in France to sign up to this unique and innovative approach for the marine industry and services sector.

The aim of this industry agreement is to define shared challenges and objectives for the 2024/2027 timeframe, along with a set of concrete actions to meet the strategic priorities that have been singled out. The agreement is the result of collective work carried out with marine leisure companies and stakeholders in the industry.

The shared development of the agreement has led to the identification of three major strategic areas that will be developed in it:

- The industry's environmental sustainability, in terms of both companies and products, but also in terms of the boaters themselves, by promoting innovation, developing the end-of-life boat disposal sector, raising boaters' awareness of best practices and protecting the seabed, etc.

- Employment and training, with the threefold aim of making the industry's professions more attractive, developing a training offer tailored to the current needs and retaining employees, in order to meet the recruitment challenges faced by companies in the region.

- The development and expansion of the industry through the creation of new businesses, innovation and the promotion of Occitanie's nautical industry and services at regional, national and international level.

During the official signing ceremony, local companies will also be given the opportunity to give their views and explain how this industry agreement will support their strategy.

PRESS EVENTS

Wednesday 3rd April 2024

9.30am > Launch press conference for the 15th International Multihull Show by FIN - **Multihull Club**

10.30am > Official opening of the show

Noon - 2pm > Allocution pour l'inauguration officielle du salon
Multihull Club

3pm > Nautitech press conference - **Multihull Club**

7pm > Multihull of The Year (MOTY) evening with this year's special Show's Prize - **IMS PREMIERE**

Thursday 4th april 2024

8:45am > Launch press conference new Windell 54 - **Stand P5**

9am > LAGOON press conference - **Multihull Club**

Noon > Press conference PRIVILEGE MARINE - **Multihull Club**

3pm > Alliance Posidonia - **Multihull Club**

Friday 5th april 2024

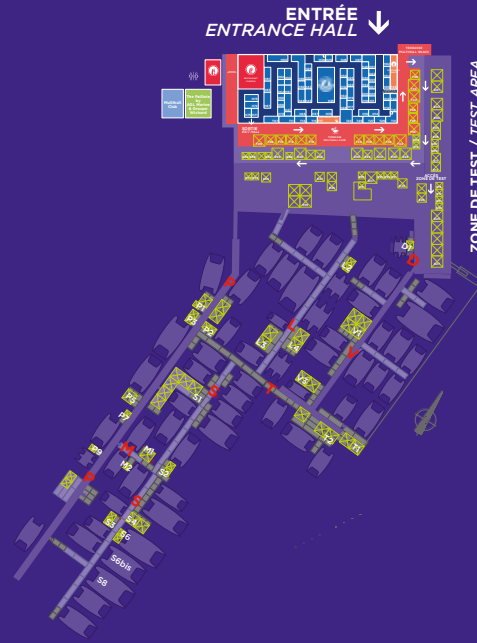

9:15am - 10:15am > Boats Group - Multihull market study Index Report 2023
Multihull Club

10:15am > Comar C Catamarans press briefing aboard the C Cat 48
Stand M2

Saturday 5th april 2024

8pm > Exhibitors' dinner
